

Training Considerations for Implementing GIS Technology

Goals of the workshop

- Help ESRI users plan their training needs when implementing GIS technology.
- Provide tools for users to plan and determine their GIS training budgets.
- Solicit user feedback on ESRI's educational offerings.

Major topics covered

- ESRI's educational services
 - How to meet an organization's training needs for today
 - How to meet future training needs as the use of GIS technology matures
- Training methods offered by ESRI
 - Instructor-led training
 - Web-based training
 - Podcasts
 - Stand-alone tutorial books and documentation
- New training methods offered by ESRI
- Guidelines for designing and implementing a detailed training plan
 - Determining training needs
 - Identifying training courses
 - Incorporating funding for training
- Case studies for building successful training plans
- Planning support available from ESRI Training Services
